

How to edit another user's saved E1 form

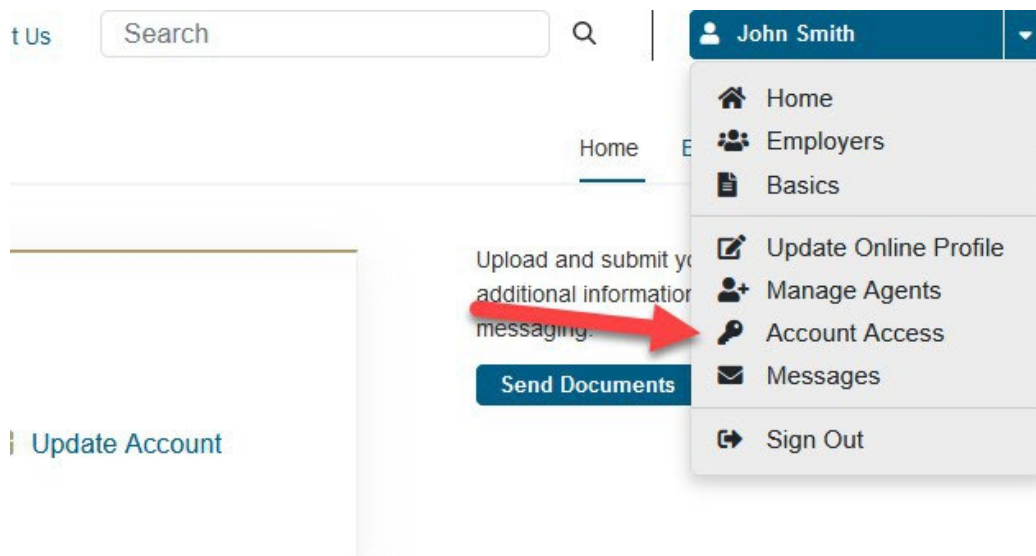

Saskatchewan Workers' Compensation Board

This document outlines how to edit another user's saved [Employer's Initial Report of Injury \(E1\) form](#) through your basic or full WCB online account. A [how-to video with this same information](#) is also available.

To edit another user's E1 form, you must be either an administrator or an agent with "Review Forms – View/Edit All E1" access.

If you are the account administrator, please review the instructions for [managing agent accounts](#) to grant this access to your agents.

To find your account administrator or to request access to this tool, log into your WCB online account and go to "account access" in the drop-down menu under your name in the top right corner of the page:

An E1 form can only be edited by one user at a time while in the "saved" state. Taking an E1 from someone while they're editing will make them lose their changes. As soon as the form is submitted, no user can edit it.

1. Sign into your [WCB online account](#). If you do not have a WCB online account, click "[Create Account](#)" to sign up.

2. Navigate to “Review Forms” under the “Employers” section.

3. If you are the account administrator or an agent with access to this tool, you will be able to locate all saved E1 forms available for you to edit.

Review Forms

Continue editing a saved form or review any previously submitted online forms. Only documents submitted online after January 1, 2018 are available for viewing.

Legend

- View View the form as a PDF.
- Edit Open the form and continue editing.
- Take over Take over ownership and continue editing this form (E1 form types only). This option is available to all administrators related to firm accounts and agents who have been granted the role 'Review Forms - View/Edit All E1'.
